## 41 CANDIDATES FOR THE THIRD

In White Cross Council, Knights of Columbus-District Deputy Hennon Conducted Exemplification-In Big Attendance That Filled Pythian Hall Were State Officers and Visiting Grand Knights.

White Cross council, No. 13, Knights of Columbus, held one of the largest attended meetings in the history of the council Sunday afternoon for the purpose of exemplifying the third or major degree of the order on a class of forty-one candidates.

The meeting was held in Pythian hall, and at the opening hour every available seat was occupied by the members of the council and visiting knights from every council in Eastern Connecticut. Occupying seats on the platform with Grand Knights Edward Driscoll were Mayor T. C. Murphy, Revs. J. H. Fitzmauice, W. H. Kennedy, F. J. Kuster, Myles P. Galvin of this city, Revs. J. V. E. Belanger and J. H. Landry of Baltic. Rev. P. J. Morrissey of Voluntown and State Lecturer Rev. William A, Keefe, of Plainfield.

There were also the following state officers and visiting grand knights:

State Advocate J. J. Collins of New London, Past District Deputy M. J. Sullivan of New London, Virtune P. A. Quinn of Ponemah council, Taftville, J. Frank Cunningham of San Jose

STATE WILL LOSE MUCH IN REVENUE

It is believed that the state will alleging interference by Acting lose a substantial sum from the change which the general assembly made in the basis of levying the Black Saturday morning handed New state tax. Heretofore, the basis of the tax was the rate. Now the rate is negligible. The law passed at the last session for the imposition of the visited by Acting Mayor Miner and reis negligible. The law passed at the last session for the imposition of the tax making no mention of a rate, but states a lump sum which is to be paid by the towns, in proportion to the amount of taxes which each pays. The total amount of the levy is \$1,750,000 per year for the next two fiscal years. Out of this amount the sum of \$500,000 is to be taken for a sinking fund. The levy is approximately equivalent to a mill and a haif on the grand list of the state. The state tax of one mill realized last year a little over \$1,100,000 on a grand list which amounted to a trifile in excess of \$101,000,000. There will be a substantial increase in the future in the grand list, but the state will not derive any benefit from it. If the levy of the state tax of one and would result in an addition to the revenue, but under the terms of the law imposing the tax of one and one half mills the state transver.

of the grand list the revenue from the tax rate of a mill and a half would, before the time expired for the levying of the tax, amount to over \$2,000,000. Deputy Treasurer B. Frank Marsh regrets that the general assembly departed from its traditional policy of assessing the grand lists of the various towns of the state. He believes the plan of requiring the towns to pay according to the mount which they collect in local taxes will give a great deal of dissatisfaction throughout the state.

bonds of the state as they fell due for redemption. But the outlook does not give promise for the realization of this hope. The total amount, even with accrued interest, will fall far short of the amount of the bonds. Superseded.
